

Journey of the Soul

Higher States of Consciousness Gifted Memory and Conscious Birth

Lesson 4

Elizabeth Carman, Ph.D.

Part 1: Interviews with Gifted Individuals

**I found myself alive in a body,
in a place I didn't know.
I had forgotten how I came there,
where I'd lived before,
or if I'd ever lived at all.**

(Cosmic Cradle, p.465)

We enter the world as babes and, except for a few blessed with their pre-uterine memories intact, most people have no clue of why they are here

or where they have come from. Memories are buried beneath layers of consciousness. Except important events, we forget over 99% of our lives.

After all, who recalls every fact learned in high school, to say little of memories in the womb, or life before conception?

**“Our birth is but a sleep and a
forgetting:
the Soul that rises with us,
our Life’s Star,
Hath had elsewhere its setting,
and cometh from afar:
Not in entire forgetfulness,
and not in utter nakedness,
But trailing clouds of glory
do we come from God,
who is our home.”**

William Wordsworth

People at the top of the memory scale recall gifted memory – “memory of events occurring prior to being in a physical body and developing a physical brain for information storage.”

Gifted memory is a cross-cultural phenomena and is not developed by social upbringing, educational background, or religious training but is the result of innate awareness.

Assignments for Lessons 4

Reading Assignments

Sections from *Cosmic Cradle* by Elizabeth & Neil Carman, Ph.D.:

- a) Chapter 28, "Footprints in Heaven," pp. 497 - 538.
- b) Chapter 29, "Children as Messengers," pp. 539 - 566.
- c) Chapter 33, "Overcoming Spiritual Amnesia," pp. 613 - 628.
- d) Chapter 34, "Angels in the Never-Ending Schoolhouse," pp. 629 - 650.

Research and Writing Assignment

1. Do you have Gifted Memory or do you know anyone who has? Please elaborate.
2. Interview 5 people with the following question: Have you heard of Gifted Memory? ... memory of the stage of life prior to conception. Gifted Memory is memory of events occurring prior to being in a physical body and developing a physical brain for information storage. This is not past life memory where we are in a physical body. Gifted memory is memory of that stage where we are not yet in a body. This memory is not induced by hypnosis, drugs, or regression therapies. When we have Gifted memory, it is natural without inducing it. If they have Gifted Memory, write up their memories, with similar details as are in the interviews in *Cosmic Cradle* reading assignment for this week.
